

Contents

Streszczenia	9
Summaries	17
Wojciech Bożejko, Józef Grabowski, Mieczysław Wodecki Block Approach-Local Search Algorithm for Single Machine Total Weighted Tardiness Problem	25
Zbigniew Buchalski An Heuristic Algorithm for the Tasks Scheduling on Parallel Machines System with Simultaneous Resources Allocation	37
Wojciech Chmiel, Piotr Kadłuczka Conditional Expected Value of Objective Function in Approximate Algorithms for Permutational Problems	47
Grzegorz Dobrowolski, Edward Nawarecki Critical Situations in Multi-Agent Systems	57
Lidia Dutkiewicz, Edyta Kucharska Model for Scheduling Problem with State Dependent Resources	67
Bogusław Filipowicz, Joanna Kwiecień The Application of Artificial Immune System for Flow Shop Problem	79
Krzysztof Giaro, Marek Kubale Scheduling in Sparse Systems of 1- and 2-processor UET Tasks within Time Windows	85
Józef Grabowski, Jarosław Pempera Flow Shop with No Store Constraints. Algorithm TS with Multimoves	95
Piotr Kadłuczka, Wojciech Chmiel Efficiency of Evolution Algorithm with Conditional Expected Value of Objective Function	105
Andrzej Kononowicz, Małgorzata Żabińska Distribution of Learning Objects Based on Agents' Technology	115

Mariusz Makuchowski	
Genetic Algorithm for No-Wait Job Shop Problem	127
Wojciech Mitkowski, Krzysztof Oprzędkiewicz	
The Control Problems for a Class of Linear Uncertain Parameter Dynamic Systems	139
Marcin Molga, Czesław Smutnicki	
Modelling, Analysis and Optimization of Orderpicking Systems	155
Iwona Oprzędkiewicz	
A Meeting of Real-Time Requirements Inside a PLC's Family	169
Krzysztof Oprzędkiewicz	
A PID Controller for a Class of Uncertain-Parameter Linear Dynamic Systems	177
Jarosław Pempera, Czesław Smutnicki	
Minimizing Cycle Time on a Flow Line. Genetic Approach with Gene Expression	189
Adam Piórkowski	
Heuristic Algorithms of Message Scheduling for Messages with Deadlines	201
Tadeusz Sawik	
A Multi-Objective Assignment of Customer Orders to Planning Periods in Make-to-Order Manufacturing	211
Czesław Smutnicki, Adam Tyński	
Job Scheduling in the Flexible Manufacturing System with AGV Vehicles	223
Czesław Smutnicki, Adam Tyński	
The Job-Shop Problem with Transportation and Limited Number of Undedicated AGV Vehicles	233

Marcin Tusiewicz

Distributed Complete Search with Branch-and-Bound for <i>NP</i> -Hard Problems	245
Style Sheet	256
