

CONTENTS

SUMMARIES	7
K.A. ALIBAYEVA, A.B. KULJABEKOV, M.S. TUNGATOROVA, A. KALTAYEV <i>Study of usage efficiency of multistage filters on mineral leaching process</i>	19
KASHY AMINIAN, SAMUEL AMERI <i>Analysis of production data from hydraulically fractured horizontal wells in Marcellus Shale</i>	37
T. BILSTAD, E.S. STENBERG, B. JENSEN, T. LARSEN, M. TOFT <i>Offshore drilled cuttings management</i>	47
STANISŁAW DUBIEL, ADAM ZUBRZYCKI, MICHAŁ MARUTA <i>Decision system model for HC exploration on the basis of DST test results</i>	51
DAN MANIU DUSE, CARMEN SONIA DUSE <i>The impact of using project based learning in Natural Gas Engineering</i>	57
ZBIGNIEW FAŁARA <i>Magnitude of hydrocarbon sorption capacity of sandy soils analysis</i>	65
ZBIGNIEW FAŁARA, AGNIESZKA STĘPIEŃ <i>Evaluation of adsorption of petroleum products in the soil depending on its granulation</i>	77
ION FOIDAȘ, DAN-PAUL ȘTEFĂNESCU, IOANA VLASIN <i>Detection and estimation of overpressures in gas reservoirs while drilling</i>	87

MACIEJ KALISKI, MARCIN KRUPA, ANDRZEJ P. SIKORA, ADAM SZURLEJ	
<i>Selected elements of unconventional natural gas economics on the example of North American Energy market experience</i>	97
MARTIN KLEMPA, MICHAL PORZER, PETR BUJOK, JÁN PAVLUŠ, ROBERT RADO	
<i>Petro-physical properties of geological formation in the aspect of possible CO₂ sequestration</i>	109
EWA KNAPIK, JERZY STOPA	
<i>Application of multifunctional fluids to improve hydrocarbon production</i>	117
OLEKSANDR KONDRAT	
<i>Study of methods of hydrocarbon recovery enhancement from the depleted oil fields</i>	127
B.V. KOPEY, S.I. GALIY, S. BEDNARZ	
<i>Effect of changes in operating power of gasmotocompressors 10 GKN on the diagnostic signs of connecting rod bearings defects</i>	145
PIOTR KOSOWSKI	
<i>Analysis of the current state and tendencies on the natural gas market and gas storage in Europe on the background of the situation in Poland</i>	151
T. NIEZGODA, E. MAŁEK, D. MIEDZIŃSKA	
<i>Carbon dioxide geosequestration method coupled with shale gas recovery</i>	161
T. NIEZGODA, D. MIEDZIŃSKA, E. MAŁEK	
<i>Analysis of coal structure in the aspect of gas content</i>	169
ANDRII OLIINYK, MARIUSZ ŁACIAK	
<i>Safety technical problems associated with the storage of liquefied natural gas (LNG)</i>	181

CANDICE PALMER, ZBIGNIEW SITO	
<i>Nitrogen and carbon dioxide fracturing fluids for the stimulation of unconventional shale plays</i>	191
DAN-PAUL ȘTEFĂNESCU, IOANA VLASIN	
<i>A new approach of mature gas fields rehabilitation from Transylvanian Basin (Romania)</i>	199
STANISŁAW STRYCZEK, ANDRZEJ GONET, RAFAŁ WIŚNIEWSKI, ALBERT ZŁOTKOWSKI, JAN ZIAJA	
<i>Influence of fluidal ashes from lignite on technological properties of slurries based on G-class drilling cements</i>	209
FLORINEL ȘUȚOIU, ARGENTINA TĂTARU, BOGDAN SIMESCU	
<i>Rigless jobs in gas wells</i>	221
MOUSSA THIAM, DARIUSZ KNEZ	
<i>Behavior of hydraulic fracture propagation in naturally fractured reservoir</i>	231
AMANKELDY TOLEUKHANOV, AIDARKHAN KALTAYEV, MIKHAIL PANFILOV	
<i>Storage of hydrogenous gas in geological formations: self-organisation methane gas</i>	241
KAZIMIERZ TWARDOWSKI, JOANNA LEWANDOWSKA-ŚMIERZCHALSKA, JOANNA PRZYBYŁOWICZ	
<i>Present metrological standards in mathematical modeling procedures</i>	247
YU.F. VASYUCHKOV, M.YU. BYKOVA, M.YU. VASYUCHKOV	
<i>Science principles for the concept – project of combined coal and gas and electrical blocks</i>	261
ZHAOYANG WANG, STEFAN MISKA, MENGJIAO YU, NICHOLAS TAKACH	
<i>Effect of tripping velocity profiles on wellbore pressures and dynamic loading of drillstring</i>	269

TOMASZ WŁODEK, ŁUKASZ ŁAWSKI

*Application of pipelines made with Thermoflex® technology
for natural gas and carbon dioxide transportation* 287

PAUL F. ZIEMKIEWICZ

*Characterization of liquid waste streams
from shale gas development* 297

ABSTRACTS

J. WESLEY BURNETT

Hydraulic Fracturing and U.S. Water Policy 311

TIMOTHY R. CARR, TAYLOR MCCLAIN, GUOCHANG WANG

*A tale of two shale units – petrophysical analysis
and sequence stratigraphy of the Marcellus Shale and Utica Shale
in the Appalachian Basin, USA* 315

RANDALL JACKSON

Shale Gas Development: Managing Economic Transitions 317

Style Sheet 319
