

Guidelines for the Authors

Submission of manuscript: in order to submit a paper for publication, the authors should send the manuscript via the website: <http://journals.agh.edu.pl/mech>.

Only original papers will be considered. Manuscripts are accepted for review with the understanding that the same work has not been, will not be and is not being currently submitted elsewhere. Submission for publication must have been approved by all of the authors.

Preparation of manuscripts: the manuscripts have to be written in English. Footnotes and unusual symbols should be avoided.

Title Page should include: the name(s) of author(s), a concise and informative title, the affiliation(s), address(es) and the e-mail address(es) of the author(s).

Abstract (of 15–20 lines) should be submitted in both Polish and English and should not contain any undefined abbreviations or unspecified references.

Keywords: please provide 4 to 6 keywords (both in Polish and English).

Scientific style: please use the standard mathematical notation for formulae, symbols (e.g. Italic for single letters that denote mathematical constants, variables, and unknown quantities).

The running text of body of the paper should be followed by figures and tables; their exact placement should be indicated in the text or on the left-hand margin.

Figures should be drawn clearly in black, printed or photocopied. Dense distribution of details in figures and tables should be avoided. Figures, tables and photographs should be numbered consecutively according to their reference in text.

Mathematical equations within text should be written in separate lines, numbered consecutively (numbers within round brackets) on the right-hand side.

References list should only include works that are cited in the text and that have been published or accepted for publication. Personal communications and unpublished works should only be mentioned in the text. It should have the following form:

Author A., Author B. Year, *Title*. Publisher, Place of publication.

e.g.: Geddes K.O., Czapor S.R., Labahn G. 1992, *Algorithms for Computer Algebra*. Kluwer, Boston.
