

Contents

Streszczenia	7
Summaries	11
Piotr Bania	
State Estimation of Linear Systems with Quantized Output Measurement	15
Piotr Bania	
Conditions for Normality of Pontryagin's Maximum Principle with Final State Constraints	29
Henryk Górecki	
Tautochrone Problem	47
Adam Kowalewski	
Optimal Control of an Infinite Order Hyperbolic System with Multiple Time-Varying Lags	53
Wojciech Mitkowski	
Is a Fractional System a Dynamical System?	67
Anna Obrączka	
Computers Methods for Chaos Diagnostic	71
Adam Piłat, Piotr Włodarczyk	
The μ -Synthesis and Analysis of the Robust Controller for the Active Magnetic Levitation System	85
Paweł Skruch	
Application of Model-Based Approach for Testing Dynamic Systems	99
Kronika i informacje	111
Informacje dla autorów artykułów	113
Style Sheet	114
