Preface	5
Wenyao Wang, Yao Xiao, Nan Guo, Junying Min Finite element analysis of bipolar plate stamping based on a Yld2000 yield mode	7
Yao Xiao, Shuangyan Ju, Jianping Lin Modeling of temperature-dependent cyclic performance of superelastic NiTi shape memory alloy	13
Dongjie Jiang, Yao Xiao A finite-strain model for a superelastic NiTi shape memory alloy	23
Dongjie Jiang, Yao Xiao Thermomechanical modeling on the crack initiation of NiTi shape memory alloy	31
Lucyna Hajder, Tao Zhang, Vu Nguyen Identification of the heat source and thermal material model parameters for the laser engineered net shaping	43
