

CONTENTS

<i>Paweł Rościszewski</i> From linear classifier to convolutional neural network for hand pose recognition	341
<i>Klaudia Sekuła, Aleksandra Borecka, Daniel Kessler, Patryk Majerski</i> SMART LEVEE in Poland. Full-scale monitoring experimental study of levees by different methods	357
<i>Barbara Bukowska-Belniak, Maciej Dwornik, Andrzej Leśniak</i> Analysis of annual temperature distribution inside the experimental embankment	385
<i>Monika Chuchro, Maciej Dwornik, Kamil Szostek, Andrzej Leśniak</i> Optimal selection of numerical models for flood embankment pore pressure and temperature datas	399
<i>Maciej Dwornik, Anna Franczyk, Andrzej Leśniak, Krzysztof Krawiec</i> Influence of initial water saturation in earthen levees on results of numerical modelling of infiltration processes	413
<i>Katarzyna Ścibisz-Mordelska, Radosław Nielek</i> Lower precision calculation for option pricing	429
