Summaries.....	5
Streszczenia.....	11
<i>Natalia Borowiec</i>	
Polyhedral Building Model from Airborne Laser Scanning Data .....	17
<i>Marcin Chodak</i>	
Relationships Between Microbial and Chemical Properties in Mine Soils Reclaimed for Forestry .....	27
<i>Józef Czaja, Janusz Dąbrowski</i>	
Statistical Algorithms for Modelling the Results of Geodetic Observations .....	37
<i>Paweł Cwiąkała, Mikołaj Skulich, Anna Szafarczyk</i>	
Repetitive Measurements of the Strain State in the Rock Mass Persistently Disturbed by the Mining Exploitation – Focus on the Triangular Rosette.....	47
<i>Wojciech Drzewiecki</i>	
Sub-Pixel Classification of Middle-Resolution Satellite Images – Evaluation of Regression Trees Applicability to Monitor Impervious Surfaces Coverage.....	61
<i>Elżbieta Jasińska, Jan Ruchel</i>	
Using a Spreadsheet for Surveying Computations .....	77
<i>Joanna Korzeniowska, Ewa Panek</i>	
Heavy Metal (Cd, Cr, Cu, Ni, Pb, Zn) Concentrations in Spruce <i>Picea Abies</i> L. along the Roads of Various Traffic Density in the Podhale Region, Southern Poland .....	89
<i>Elżbieta Kowalczyk</i>	
Trophic State Assessment of Dobczyce Reservoir .....	97

---

*Anna Trembecka, Anita Kwartnik-Pruc*

The Issue of Compensation for Loss of Rights to Property Plots Parcelled out for Public Roads Based on the Example of Cracow.....	105
--------------------------------------------------------------------------------------------------------------------------------------	-----

*Marcin Uradziński, Adam Duskocz*

Initial Analysis of the Accuracy of Position Determination Using ASG-EUPOS NAVGEO (RTK VRS) Service.....	113
-------------------------------------------------------------------------------------------------------------	-----

Style Sheet .....	119
