Summaries	5
Streszczenia	9
<i>Volodymyr I. Bondarenko, Olexandr M. Kuzmenko, Roman O. Dychkovskiy, Iryna A. Kovalevska</i> History of Creation of the Mining Craft Faculty at the Katerynoslav Higher Technical Mining School (1900–1918)	13
<i>Jaroslav Dvořáček</i> Problems Associated with Closing Underground Mines for Economic Reasons	25
<i>Silvie Heviánková, Jiří Vidlář, Tomislav Špaldon</i> Tests of Precipitation of Sulphates from Mining Water	31
<i>Jacek Jarosz</i> Estimation of the Range of Fractured Zone in the Roof of Underground Roadways Using the Seismic Method	39
<i>Henryk Kleta, Franciszek Plewa, Grzegorz Stozik</i> Application of Stabilizing Highly Thickened Slurries for Filling of Flooded Shafts	47
<i>Leon Kurczabiński, Roman Łój</i> Modern Technologies of Heat Production as an Opportunity for Coal	53
<i>Tadeusz Majcherczyk, Piotr Małkowski</i> Strata Control in Underground Tunnels — Perspectives for Development	61
<i>Krzysztof Olszówka, Filip Orzechowski</i> Simulation of Extraction Rate and Scheduling Based on Geological and Quality Models as a Method of Mine Planning in Modern Mining	77
<i>Gennadiy G. Pivniak</i> National Mining University — the Oldest Mining Higher Education Institution in Ukraine	87
<i>Robert Ranoz, Michał Kopacz</i> Energetic Raw Material Prices in the Aspect of Defining Mutual Interactions and Relations	95
<i>Piotr Saługa, Eugeniusz J. Sobczyk</i> Determining Mineral Project Value — the Preference Theory	105

<i>Vojtěch Václavík, Michail Lembák</i> Industrial Waste as an Effective Material for Dam Construction	111
<i>Michal Vaněk</i> Measuring of Technological Transport Time Consumption in Quarrying Using GPS Technology	121
