

Contents

Daniel Gurgul, Andriy Burbelko, Tomasz Wiktor Derivation of Equations for a Size Distribution of Spherical Particles in Non-Transparent Materials	53
Cletus Chiosa Odili, Oluwashina Philips Gbenedor, Henry Adekola Haffner, Samson Oluropo Adeosun Directions of the Development of the Metallization of Iron Alloy Products	61
Stefan Kante, Andreas Leineweber Interaction of N with White-solidified Cast Iron Model Alloys: The Effect of Mn and Cu on the Formation of Fe and Si Nitrides	66
Gregor Mikl, Thomas Höfler, Christian Gierl-Mayer, Herbert Danninger, Bernhard Linder, Gerhard Angeli Scaling Behaviour of Si-alloyed Steel Slabs under Reheating Conditions	71
Hanna Suchan, Adam Cwudziński Numerical Analysis of the Influence of the Modification of the Ladle Shroud on Fluid Flow Behavior in a One-strand Tundish during Continuous Steel Casting	75
Michael Horvath, Matthias Oberreiter, Michael Stoschka, Martin Leitner Set-up of a Generalized Dataset for Crack-Closure-Mechanisms of Cast Steel	84
Łukasz Petrus, Andrzej Bulanowski, Jakub Kołakowski, Jakub Sobieraj, Tomasz Paruch, Mariusz Urbanowicz, Mateusz Brzeżański, Daniel Burdzy, Jerzy Zych, Krzysztof Janerka The Importance of TDA Thermal Analysis in an Automated Metallurgical Process	89
Maximilian Brait, Eduard Koppensteiner, Gerhard Schindelbacher, Jiehua Li, Peter Schumacher Artificial Intelligence Approaches to Determine Graphite Nodularity in Ductile Iron	94
Artur Kawecki, Eliza Sieja-Smaga, Kinga Korzeń, Magdalena Majchrowska, Piotr Noga Research on Mechanical and Electrical Properties of Cu-Ag Alloys Designed for the Construction of High Magnetic Field Generators	103
