

<i>Daniel Alpay and Alon Kipnis</i>	
A generalized white noise space approach to stochastic integration for a class of Gaussian stationary increment processes . . . . .	395
<i>Zbigniew Burdak</i>	
On the decomposition of families of quasinormal operators . . . . .	419
<i>Albo Carlos Cavalheiro</i>	
Existence results for Dirichlet problems with degenerated $p$ -Laplacian . . . .	439
<i>Jacek Chudziak and Sebastian Wójcik</i>	
Periodic solutions in multivariate invariance arguments . . . . .	455
<i>Jonathan Eckhardt, Fritz Gesztesy, Roger Nichols, and Gerald Teschl</i>	
Weyl-Titchmarsh theory for Sturm-Liouville operators with distributional potentials . . . . .	467
<i>Patryk Pagacz</i>	
The Putnam-Fuglede property for paranormal and $*$ -paranormal operators . . . . .	565
<i>Steen Pedersen and Jason D. Phillips</i>	
On intersections of Cantor sets: Hausdorff measure . . . . .	575
Instructions for authors . . . . .	599
