

<i>L.C. Becker, T.A. Burton, and I.K. Purnaras</i>	
Integral and fractional equations, positive solutions, and Schaefer's fixed point theorem	431
<i>Leonid Berezhansky, Małgorzata Migda, and Ewa Schmeidel</i>	
Some stability conditions for scalar Volterra difference equations	459
<i>Maciej P. Denkowski</i>	
A remark on the intersections of subanalytic leaves	471
<i>Olena Karlova and Olga Fodchuk</i>	
On the Baire classification of continuous mappings defined on products of Sorgenfrey lines	481
<i>Artur Lipnicki</i>	
Uniform approximation by polynomials with integer coefficients	489
<i>Ilona Michalik and Szymon Walczak</i>	
Entropy of foliations with leafwise Finsler structure	499
<i>Kien Trung Nguyen and Nguyen Thi Linh Chi</i>	
A model for the inverse 1-median problem on trees under uncertain costs	513
<i>Alexander V. Vasilyev and Vladimir B. Vasilyev</i>	
On solvability of some difference-discrete equations	525
<i>Ho Vu, Nguyen Ngoc Phung, and Nguyen Phuong</i>	
On fractional random differential equations with delay	541
