

<i>Khaled Ben Ali, Abdeljabbar Ghanmi, and Khaled Kefi</i> On the Steklov problem involving the $p(x)$ -Laplacian with indefinite weight	779
<i>Martin Bohner and Sabrina H. Streipert</i> The second Cushing–Henson conjecture for the Beverton–Holt q -difference equation	795
<i>Tyrone E. Duncan and Bozenna Pasik-Duncan</i> A direct approach to linear-quadratic stochastic control	821
<i>Gioia Failla</i> Ideals with linear quotients in Segre products	829
<i>John R. Graef, Ercan Tunç, and Said R. Grace</i> Oscillatory and asymptotic behavior of a third-order nonlinear neutral differential equation	839
<i>Karima Hamani and Benharrat Belaidi</i> On the hyper-order of transcendental meromorphic solutions of certain higher order linear differential equations	853
<i>Reza Nikandish and Farzad Shaveisi</i> On the structure of compact graphs	875
<i>Sandra Pinelas and Julio G. Dix</i> Oscillation of solutions to non-linear difference equations with several advanced arguments	887
