

<i>I.V. Astashova and A.V. Filinovskiy</i>	
On properties of minimizers of a control problem with time-distributed functional related to parabolic equations	595
<i>Nurulla Azamov and Tom Daniels</i>	
On the imaginary part of coupling resonance points	611
<i>Ryan C. Bunge</i>	
On 1-rotational decompositions of complete graphs into tripartite graphs	623
<i>Kamila Dębowska and Leonid P. Nizhnik</i>	
Direct and inverse spectral problems for Dirac systems with nonlocal potentials	645
<i>D.D. Hai and X. Wang</i>	
Positive solutions for the one-dimensional p -Laplacian with nonlinear boundary conditions	675
<i>Jaroslav Ivančo</i>	
On edge product cordial graphs	691
<i>Ewa Skrzypek and Katarzyna Szymańska-Dębowska</i>	
On the Lebesgue and Sobolev spaces on a time-scale	705
<i>Yousri Slaoui</i>	
Large and moderate deviation principles for nonparametric recursive kernel distribution estimators defined by stochastic approximation method	733
Instructions for authors	747
