

<i>Blanka Baculíková and Jozef Džurina</i>	
Oscillatory criteria via linearization of half-linear second order delay differential equations	523
<i>Dahmane Bouafia and Toufik Moussaoui</i>	
Existence results for a sublinear second order Dirichlet boundary value problem on the half-line	537
<i>Said Rezk Grace, Jehad Alzabut, Sakthivel Punitha, Velu Muthulakshmi, and Hakan Adıgüzel</i>	
On the nonoscillatory behavior of solutions of three classes of fractional difference equations	549
<i>Rytis Juršėnas</i>	
On some extensions of the A-model	569
<i>Zhila Mansouri and Doost Ali Mojdeh</i>	
Outer independent rainbow dominating functions in graphs	599
<i>Athena Shaminezhad and Ebrahim Vatandoost</i>	
On 2-rainbow domination number of functigraph and its complement	617
<i>Ercan Tunç and Osman Özdemir</i>	
Oscillatory behavior of second-order damped differential equations with a superlinear neutral term	629
