

<i>Shunya Adachi</i>	
Monodromy invariant Hermitian forms for second order Fuchsian differential equations with four singularities . . .	361
<i>Emad R. Attia and Bassant M. El-Matary</i>	
New aspects for the oscillation of first-order difference equations with deviating arguments	393
<i>Saada Hamouda and Sofiane Mahmoudi</i>	
Growth of solutions of a class of linear fractional differential equations with polynomial coefficients	415
<i>Vyacheslav Pivovarchik</i>	
On Ambarzumian type theorems for tree domains	427
<i>Faisal Susanto, Kristiana Wijaya, Slamir, and Andrea Semaničová-Feňovčíková</i>	
Distance irregularity strength of graphs with pendant vertices	439
<i>Ewelina Zalot</i>	
Spectral resolutions for non-self-adjoint block convolution operators	459
<i>Noureddine Zeddini and Rehab Saeed Sari</i>	
Existence of positive continuous weak solutions for some semilinear elliptic eigenvalue problems	489
Instructions for authors	521
