<i>Winfried Auzinger, Wolfgang Herfort</i>	
A uniform quantitative stiff stability estimate for BDF schemes . . . . .	203
<i>Winfried Auzinger, Ernst Karner, Othmar Koch, Ewa Weinmüller</i>	
Collocation methods for the solution of eigenvalue problems for singular ordinary differential equations . . . . .	229
<i>Nikolay V. Azbelev, Vadim Z. Tsalyuk</i>	
Application of Green's operator to quadratic variational problems . . . . .	243
<i>Marina Blizorukova, Nina Fedina, Vyacheslav Maksimov</i>	
On reconstruction of structure of a linear system with time delay . . . . .	257
<i>Jeff R. Cash</i>	
The numerical solution of nonlinear two-point boundary value problems using iterated deferred correction – a survey . . . . .	269
<i>Luís P. Castro, David Natroshvili</i>	
The reactance wave diffraction problem by a strip in a scale of Bessel potential spaces . . . . .	289
<i>Ondřej Došlý</i>	
A remark on the linearization technique in half-linear oscillation theory . .	305
<i>Grzegorz Grzegorzczyk, Jarosław Werbowski</i>	
On oscillatory solutions of certain difference equations . . . . .	317
<i>Vyacheslav Maksimov</i>	
A dynamical inverse problem for a parabolic equation . . . . .	327
<i>Jarosław Mikołajski, Ewa Schmeidel</i>	
Comparison of properties of solutions of differential equations and recurrence equations with the same characteristic equation (on example of third order linear equations with constant coefficients) . . .	343
<i>Aleksandra Orpel</i>	
Continuous dependence of solutions of elliptic BVPs on parameters . . . . .	351
<i>Ewa Schmeidel</i>	
Oscillatory and asymptotically zero solutions of third order difference equations with quasidifferences . . . . .	361
<i>Ewa Schmeidel, Małgorzata Migda, Anna Musielak</i>	
Oscillatory properties of fourth order nonlinear difference equations with quasidifferences . . . . .	371
Instructions for authors . . . . .	381
