

CONTENTS

---

<i>Mostafa Blidia, Mustapha Chellali</i> A note on Vizing's generalized conjecture . . . . .	181
<i>Nikolai N. Bogoliubov (Jr.), Denis L. Blackmore, Valeriy Hr. Samoylenko, Anatoliy K. Prykarpatsky</i> On kinetic Boltzmann equations and related hydrodynamic flows with dry viscosity . . . . .	187
<i>Volodymyr Denysenko</i> Transmission problems for the Helmholtz equation for a rectilinear-circular lune . . . . .	197
<i>Tomasz Drwiega</i> The use of integral information in the solution of a two-point boundary value problem . . . . .	205
<i>Katarzyna Graseła</i> Polynomials on the space of $\omega$ -ultradifferentiable functions . . . . .	221
<i>Oksana Ye. Hentosh, Anatoliy K. Prykarpatsky</i> Integrable three-dimensional coupled nonlinear dynamical systems related with centrally extended operator Lie algebras . . . . .	231
<i>Stanisław Kasprzyk, Margareta Wiciak</i> Differential equation of transverse vibrations of a beam with a local stroke change of stiffness . . . . .	245
<i>Józef Kalinowski</i> On the equivalence of pre-Schröder equations . . . . .	253
<i>Marian Malec, Lucjan Sapa</i> A finite difference method for nonlinear parabolic-elliptic systems of second-order partial differential equations . . . . .	259
<i>Marcin Mazur, Jacek Szybowski</i> Algebraic construction of a coboundary of a given cycle . . . . .	291
<i>Krzysztof Rudol</i> Spectra of subnormal pairs . . . . .	301
<i>Vladimir Ryzhov</i> A general boundary value problem and its Weyl function . . . . .	305
Instruction for authors . . . . .	333
