

CONTENTS

<i>Mohamed Bouzefrane, Mustapha Chellali</i> On the global offensive alliance number of a tree	223
<i>Anna Dudek</i> Smoothed estimator of the periodic hazard function	229
<i>Behrouz Kheirfam</i> Sensitivity analysis in piecewise linear fractional programming problem with non-degenerate optimal solution	253
<i>Michał A. Nowak</i> Approximation methods for a class of discrete Wiener-Hopf equations	271
<i>J.D. Ramírez, A.S. Vatsala</i> Monotone iterative technique for fractional differential equations with periodic boundary conditions	289
<i>Jerzy P. Rydlewski</i> A note on the maximum likelihood estimator in the gamma regression model	305
<i>Semyon B. Yakubovich</i> A double index transform with a product of Macdonald's functions revisited	313
Instruction for authors	331
