

<i>Narcisa C. Apreutesei</i>	
Necessary optimality conditions for predator-prey system with a hunter population	389
<i>Marina Blizorukova, Vyacheslav Maksimov</i>	
On some dynamical reconstruction problems for a nonlinear system of the second-order	399
<i>Bapurao C. Dhage, Sotiris K. Ntouyas</i>	
Existence and attractivity results for nonlinear first order random differential equations	411
<i>E.M. Elsayed</i>	
On the global attractivity and the periodic character of a recursive sequence	431
<i>Johnny Henderson, Xueyan Liu, Jeffrey W. Lyons, Jeffrey T. Neugebauer</i>	
Right focal boundary value problems for difference equations	447
<i>Dominik Mielczarek</i>	
Minimal and co-minimal projections in spaces of continuous functions . . .	457
<i>Liu Min, Shih-sen Chang, Ping Zuo</i>	
An algorithm for finding a common solution for a system of mixed equilibrium problem, quasi-variational inclusion problem and fixed point problem of nonexpansive semigroup	465
<i>Gurucharan Singh Saluja</i>	
Convergence theorems for strictly asymptotically pseudocontractive mappings in Hilbert spaces	485
<i>Agnieszka Siluszyk</i>	
On the relative equilibrium configurations in the planar five-body problem	495
<i>JinRong Wang, W. Wei, YanLong Yang</i>	
On some impulsive fractional differential equations in Banach spaces	507
<i>Mariusz Meszka</i>	
Research problems from the 18th Workshop ‘3in1’ 2009	527
