

<i>Mohamed Akkouchi</i>	
A Meir-Keeler type common fixed point theorem for four mappings	5
<i>A. Azócar, J. Giménez, K. Nikodem, J.L. Sánchez</i>	
On strongly midconvex functions	15
<i>Bapurao C. Dhage</i>	
Multi-valued codensing random operators and functional random integral inclusions	27
<i>A. Grod, S. Kuzhel, V. Sudilovskaya</i>	
On operators of transition in Krein spaces	49
<i>Ling Liu, Yongkun Li</i>	
Existence and uniqueness of anti-periodic solutions for a class of nonlinear n -th order functional differential equations	61
<i>Janusz Matkowski</i>	
Subadditive periodic functions	75
<i>Teresa Rajba, Szymon Wąsowicz</i>	
Probabilistic characterization of strong convexity	97
<i>JinRong Wang</i>	
Existence and stabilizability of steady-state for semilinear pulse-width sampler controlled system	105
<i>JinRong Wang, X. Yan, X.-H. Zhang, T.-M. Wang, X.-Z. Li</i>	
A class of nonlocal integrodifferential equations via fractional derivative and its mild solutions	119
<i>Semyon B. Yakubovich, Nelson Vieira</i>	
A radial version of the Kontorovich-Lebedev transform in the unit ball	137
